

# vote for the dogs

Decouple Live Greyhound Racing - Support HB 641 & SB 382

At racetracks across Florida, **thousands of greyhounds endure lives of confinement** and **many suffer serious injuries**. Dogs are kept inside warehouse-style kennels, in small cages barely large enough for the dogs to stand up or turn around for up to **23 hours per day**. Additionally, since 2004 state investigators have documented at least **nine cases of severe neglect** at Florida dog tracks and associated kennel compounds. It is time for this cruelty to end!

Two bills now being debated in the state legislature (House Bill 641 and Senate Bill 382) would decouple greyhound racing from other forms of gambling. Many tracks are actually **losing money on greyhound races**, but are required to continue racing in order to offer more profitable form of gambling. Greyhound decoupling would **remove this mandatory racing requirement**.

This mandate comes at a significant **cost to both taxpayers and track operators**, and conflicts with free market principles. Decoupling is not about whether greyhound racing should or should not be legal in Florida, but whether the state should force a business to conduct one activity so that it may offer another. This humane legislation **does not expand gambling in any way**.
